'Hot Topics ranks amongst the best GP education days that I have ever attended. The content was excellent and the day delivered what it promised - up to date practical information.'

Dr. Comben, Elanora

'This course is head and shoulders above anything else I've attended. The amount of relevant information is astounding, but not overwhelming and it's all presented in a succinct way. Love that it's for GPs, by GPs.'

Dr. Allen, Perth

'If there's only one book for medical students to read in the next 10 years, make sure it's the Hot Topics workbook...it's that good!!'

Dr. Brennan, Davidson

'Thank you for running the Hot Topics Course. It was very useful, and so enthusiastically presented that falling asleep would be virtually impossible. I wish I could say that for all education events...'
